

BEFORE THE TENNESSEE REGULATORY AUTHORITY AT

NASHVILLE, TENNESSEE

October 31, 2001

IN RE:)	
)	
PETITION OF ON-SITE SYSTEMS, INC.)	DOCKET NO.
TO AMEND ITS CERTIFICATE OF)	01-00492
CONVENIENCE AND NECESSITY)	

**ORDER APPROVING PETITION OF ON-SITE SYSTEMS, INC.
TO AMEND ITS CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY**

This matter came before the Tennessee Regulatory Authority (the "Authority") at a regularly scheduled Authority Conference held on July 24, 2001, to consider the Petition (the "Petition") of On-Site Systems, Inc. ("On-Site") to amend its Certificate of Public Convenience and Necessity ("CCN") to expand its service area to include an area known as the Browning Subdivision in Knox County, Tennessee.

Legal Standard for Granting CCN

On-Site's Petition was made pursuant to and was considered in light of the criteria for granting a CCN as set forth in Tenn. Code Ann. § 65-4-201, which provides, in pertinent part:

(a) No public utility shall establish or begin the construction of, or operate any line, plant, or system, or route in or into a municipality or other territory already receiving a like service from another public utility, or establish service therein, without first having obtained from the authority, after written application and hearing, a certificate that the present or future public convenience and necessity require or will require such construction, establishment, and operation, and no person or corporation not at the time a public utility shall commence the construction of any plant, line, system or route to be operated as a public utility, or the operation of which would constitute the same, or the owner or operator thereof, a public utility as defined by law, without having first obtained, in like manner, a similar certificate . . .

Background

On April 4, 1994, On-Site received a CCN in Docket No. 93-09040 from the Tennessee Public Service Commission to provide wastewater service to the Oakwood Subdivision in Maury County. Since that time, through various other dockets, On-Site has been granted approval to expand its service territory to include other areas in Tennessee.

Petition to Amend CCN

On June 6, 2001, On-Site filed its Petition to amend its CCN to expand its service area to include the Browning Subdivision in Knox County. On-Site states that the Browning Subdivision will contain only residential customers. A map showing the area to which On-Site proposes to extend service is attached to its Petition. In its Petition, On-Site states that neither the Knox County Government nor the Hallsdale-Powell Utility District has a desire to provide wastewater service to this area. With its Petition, On-Site submitted a letter dated February 13, 2001 from Marvin L. Hammond, General Manager of the Hallsdale-Powell Utility District, stating that the Utility District has no plans to provide wastewater services to the proposed development. In addition, On-Site submitted a letter dated February 15, 2001 from Bruce Wuethrich, Director of Knox County Engineering and Public Works, stating that Knox County does not provide wastewater service.

On-Site filed a rate schedule in this docket which states that residential rates for the Browning Subdivision in Knox Co. will be as follows:

Total monthly charge	\$35.11
Non-payment fee	5% of monthly charge
Disconnection fee	\$10
Reconnection fee	\$15
Returned check fee	\$20
Access fee	\$84/year

This rate schedule comports with the rate schedule for On-Site approved by the Authority in Docket No. 99-00393 on January 11, 2000. The rate schedule does not list any commercial

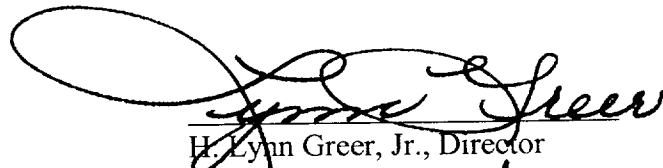

wastewater rates for this area.

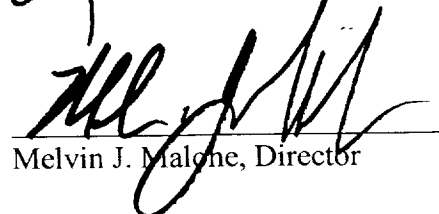

On July 24, 2001, On-Site's Petition came before the Authority at a regularly scheduled Authority Conference. Upon consideration of the Petition and the entire record, the Authority finds that the present and future public convenience and necessity require the approval of On-Site's Petition. Pursuant to Tenn. Code Ann. § 65-4-201, the Authority grants On-Site's Petition.

IT IS THEREFORE ORDERED THAT:

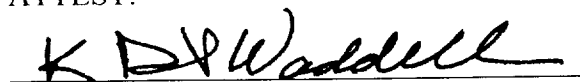

1. The Petition of On-Site Systems, Inc. to amend its Certificate of Public Convenience and Necessity to expand its service area to include an area known as the Browning Subdivision in Knox County, as shown in the map attached to the Petition, is approved;
2. On-Site's rates for wastewater service to the Browning Subdivision in Knox County shall be as listed in the rate schedule filed with On-Site's Petition and as set forth in this Order; and
3. Any party aggrieved with the Authority's decision in this matter may file a Petition for Reconsideration with the Authority within fifteen (15) days from the date of this Order.
